

GAY TIME AT 5TH LEGION FESTIVAL IS ANTICIPATED

Jollity Will Be Provided by
Indians, Bands, Rides
and Fireworks

Bright lights, gay scenes, amusing entertainers and enticing novelties again will draw throngs to enjoy the annual Legion festival, sponsored by the American Legion Post 748 and the auxiliary Thursday, Friday, Saturday and Sunday, July 2, 3, 4 and 5. The festival will be held across from the post office, on the lot next to the Antioch Sales and Service station.

Twelve different amusements have been arranged for and three big rides—the ever popular merry-go-round, the ferris wheel, and the chairplane will be in constant operation. The chairplane was new in Antioch last year, but it met with an enthusiastic reception by those who like their thrills stronger than the act of riding a merry-go-round horse affords.

Indiana to Dance.
Real Ojibwa Indians from the Coudery Indian reservation at Heyworth, Wis., will camp on the grounds and entertain the public with strange steps and weird dances.

Special music programs have been provided for every evening. A band concert will entertain Thursday evening; drum and bugle corps concert Friday night; music and a splendid fireworks display Saturday night; and drum and bugle corps concert Sunday evening.

The night of the Fourth will be observed with a mammoth fireworks display, combining the "artillery" the kids delight in, and rockets which fall into formations of startling beauty.

A meeting of the Legion and auxiliary will be held tonight to further complete arrangements and appoint committees.

This is one time in the year when the Legion boys and auxiliary girls spruce themselves to give the public an unforgettably good time. Anyone planning to attend is assured that after the affair is over, life will seem brighter.

To Decorate City.

Flags and streamers, window displays, and other forms of decorating the city for this gala occasion will be discussed tonight when the business men meet with John Horan and Commander S. M. Walence.

Antioch Laundry Receives Charter

The Antioch Laundry & Dry Cleaning company received its charter Friday from Secretary of State William J. Stratton. This is the second charter issued to a laundry concern here within a year's time, as the new incorporation followed a reorganization of the original business which was incorporated under the name, Chain O' Lakes Laundry & Dry Cleaning company. Common stock for \$75,000 is authorized in the charter, and Robert C. Abt, Frank Hatch, E. A. Grutzmacher and Fred Kamier are named as incorporators.

National G. A. R. Commander Visits Antioch Friends

James E. Jewel, commander in chief of the Grand Army of the Republic, and Mrs. Jewel were guests Sunday of Mr. and Mrs. E. A. Grutzmacher and family. The distinguished visitors spent an active and enjoyable day here, attending services at the Methodist church in the forenoon, and calling on Antioch's sole surviving Civil war veteran, Addison J. Felter, in the evening.

Commander Jewel's duties are quite arduous, as he is required to travel throughout the United States, but he is still quite active in spite of his advanced age, 78 years. The Jewel family home is in Fort Morgan, Colo. The commander is the father of Mr. Grutzmacher's former business partner.

ERECT FLASHLIGHT SIGNALS AT NORTH SOO LINE CROSSING

Automated flashlight signals with cross buck signs were substituted for the old wigwag signal Tuesday at the crossing of the Soo Line railroad with highway 21 north of Antioch, as was ordered over a month ago by the Illinois commerce commission. The commission further stipulated that a full 24-hour protection for traffic passing over the crossing be maintained.

The crossing has long been known as one of the most dangerous in Lake county, but it was the tragic death of five Libertyville youths April 23 that precipitated immediate action to provide adequate protection.

At It Again

Will Hold Week's Mission at St. Peter's Church

A week's mission will be held from Sunday evening, July 5, until Sunday evening, July 12, Father Don Frawley, pastor of St. Peter's Catholic church, has announced.

Father Bernard Mulloy, C. S. C., of the Notre Dame Mission Band, will conduct the mission. He will be welcomed not as a stranger who needs an introduction, but as an old friend whom everyone will rejoice to see again.

Father Mulloy gave the first mission in the new church at Antioch last July. His attractive personality and oratorical ability won him the love and friendship of many. Father Frawley considers the community fortunate to again secure his services this summer, and respectfully invites non-Catholic friends to attend any of the evening services during the week of the mission, July 5 to 12, inclusive.

Ladies' Guild To Give Rookie Play Aug. 20, 21

"Corporal Eagen" Will Be
Staged by 150 Local
People

Arrangements for the production of the famous rookie comedy, "Corporal Eagen," to be staged August 20 and 21 at the Antioch high school auditorium, were completed this week by a committee representing the Ladies' Guild of the St. Ignace church, headed by their president, Mrs. Ida Omond, which met with Millard Jones, representative of the Universal Producing Company of Fairfield, Ia.

The production is something entirely new and different in the manner of clean, patriotic community entertainment. "Corporal Eagen" has a coast-to-coast record of large and appreciative audiences, and unusually good press reports. The production will be offered by 150 local people, using elaborate costumes and scenic effects.

Indications point to a very successful showing of the production in Antioch as has been the case throughout the entire country.

Roy Murrie Takes Over Standard Oil Service Station

Roy L. Murrie assumed the proprietorship of the Standard Oil Company service station on the corner of Main and Park streets Friday when he signed a lease for an indefinite number of years. He is being assisted by his son, Lloyd.

Mr. Murrie, until a short time ago, was associated with the Farm Supply Company at Grayslake. Before becoming engaged in that work two years ago he had been in the employ of the Standard Oil company for twelve years, and was well-known and well-liked by the company and by his customers.

For the past fifteen months, the service station has been managed by Dan Kelly.

SUPERVISORS FIX MAXIMUM PRICES FOR FOOD SUPPLY

More Careful Purchasing Is
Seen in Act of
Board

Public Notice.

The board of Supervisors of Lake county, at its June meeting, 1931, fixed the maximum prices on certain foods to be furnished to the poor of the county as follows, to-wit:

Flour, 1/4 barrel.....	\$.50
Flour, 1/2 barrel.....	1.50
Coffee.....	.25
Salmon.....	.20
Corn.....	.12 1/2
Tomatoes.....	.15
Peas.....	.12 1/2
Prunes.....	.12 1/2
Meats, per lb.....	.25

More careful purchasing of supplies is seen in this act of the supervisor board as a direct step toward the practice of right economy. If the plan of economy is ruled to apply to the various other departments of the county, it is believed a substantial saving will be effected.

GEORGIA RAY DRURY RECEIVES A MUSIC DEGREE

Georgia Ray Drury, daughter of Mr. and Mrs. Bert Ray, of Antioch, received the degree of Bachelor of Music from the Columbia school of music at Orchestra Hall, Chicago, last Thursday evening, June 18.

Mrs. Drury plans to hold a public recital next Tuesday evening at the Methodist church here, and has extended a cordial invitation to all who care to attend. She has a branch studio here in Antioch at 1055 Victoria street, and a main studio in Waukegan at 821 Porter street.

BOY SCOUT NEWS

SCOUT CAMP ACTIVE

Fifty-six Lake county Scouts and leaders are active at Camp Sauganash on Lily lake in Kenosha county, Wis., in the first of three weeks at the annual encampment there.

In addition to Scout Executive Warren Blodgett, who is superintendent of the camp, there is a staff of Scouters and older Scouts, headed by Joseph F. Guerin, assistant Scoutmaster of Troop 9, Waukegan, and camp director, Deputy Commissioner Walter J. Patton is Scoutcraft officer; Roger McClaiky of Troop 2, Clayton; Christensen of Troop 16, and Nels Nielsen of Troop 42, are waterfront directors; Richard J. Willerton is camp quartermaster; Seymour Schiff of Troop 1, sanitation officer; George Wendahl of Troop 16, commissary; also, Sidney Schiff of Troop 1, camp clerk; and John F. Clark of Troop 15, is in charge of games.

The Scouts in camp are organized into three troops of two patrols each. Seven Scouts of Troop 81, Antioch, on Friday of this week will join those now in camp, and Scouts of Troop 77, Gurnee, with their Scoutmaster, Ellis Cowling, will go to camp Sunday.

SMITH CANDIDACY FAVORED IN NEW DIST., LEADERS SAY

Two Oppose State's Attorney
for Congress
Seat

JAMES WELCH MAY BE DEMOCRAT ENTRANT

A boon to the candidacy of Col. A. V. Smith for congressman from the newly formed thirteenth district is seen in a summary of facts pertinent to the election of Republican candidate.

Two Evanstonians are seeking favor in the new north shore district—Representative Ralph E. Church and Senator Barbour, dry Republican.

Congressman Carl R. Chindolom is out of the new district.

The new district does not include so large a part of populous Cook county as did the old tenth district.

By concentrating upon a single candidate Lake county will hold the balance of power. Representative Lyons, mentioned as a possible candidate, has declared he will not enter the race.

Welch, Democratic Entrant?

Meanwhile Democrats are looking with favor upon James G. Welch, former Republican state's attorney of Lake county, as the Democratic entrant in the race. It is also rumored that Welch may be a candidate for lieutenant-governor.

Lumbermen's Golf Tourney Attracts Many Participants

Ellis Wins First with a 77;
Breaks Record of Last
August

A field of 100 golfers and many enthusiastic by-standers witnessed the brilliant playing of C. H. Ellis, salesman for the National Lead Company, who won low net with a score of 77 in the eleventh semi-annual spring tournament of the Lumbermen's Golf and Building Material Dealers Association at the Chain O' Lakes golf course on June 15.

Father Kelley, of Chicago, took second low net honors with an 81. One additional stroke placed Henry Dubey third, with an 82. S. H. Coldbridge and Walter Leininger tied for fourth place with an 84 each.

With a combined score of 324, Leininger, Dubey, Bill Thatcher and Alex Todd won the low gross foursome prize. Dubey, Ellis, Father Kelley and W. H. Springenberg, part owner of the Nicol Sash and Door Co., of Chicago, were victorious in the four short holes event.

Blind bogey winners were Art Frankie, a retail lumberman at Cary, Ill.; and Bill Hannan.

All members thoroughly enjoyed a chicken dinner at Peregryn's resort after the 18-hole play at the club.

The low score of 79 made by E. A. Holcombe, of Rockford, Ill., during last August's tournament was exceeded at the recent tourney by two strokes, when Ellis turned in his card with a 77.

Herb J. Vos, who has headed the program committee since the organization was first effected, again had that honor. Others working with him were Ruel E. Hussey, Tom Neade, Dan Boyer, W. E. Brandt and Sid Sennot.

John Pacini, accompanied by his son, Norbert, will leave tomorrow to attend a convention of the Spanish-American war veterans at Champaign, Ill., June 27, 28 and 29. Mr. Pacini belonged to the Jones Camp No. 50 of the Waukegan Department of Illinois.

Information Bureau Will Assist Visitors Here During Festival

Anticipating one of the season's largest crowds in Antioch and the lake region over the Fourth of July and during the American Legion festival to be held here July 2, 3, 4 and 5, the Antioch Post in co-operation with the Antioch News will inaugurate a service bureau to assist in securing rooming accommodations for visitors here over the holiday. All residents and all business places will be asked to assist in taking care of the large crowd expected, according to Committee Chairman John Horan.

For the purpose of enlisting the aid of business firms during the festival, Horan and Post Commander Walence tonight will lay the committee's plans for city decoration before the men who have been asked to meet at the village hall at 7:45.

Elsewhere in this edition of the News will be found a coupon to be filled out by all those who have rooms that may be placed at the disposal of visitors. If you have rooms please fill out the coupon and mail at once to the Antioch News. The coupons will be turned over to the American Legion bureau. Thus the committee will be able to render a real service to guests and you will also be doing your part in helping to entertain the holiday crowd.

Denman and Nielsen Advanced at F.F.A. State Convention

Word has just been received that Kenneth Denman, a graduate in the vocational agriculture department of the Antioch high school, has been selected one of five boys in the state of Illinois to be recommended to receive the degree of American Farmer at Kansas City next November. Kenneth was state reporter of the Illinois association of Future Farmers of America last year.

Antioch now boasts of having two American Farmers. Homer Edwards was selected last year, and is now attending the college of agriculture at the University of Illinois.

William Nielsen, another graduate of the agricultural department of Antioch, was advanced from the degree of Future Farmer to that of State Farmer, having won that distinction through his soil improvement work on the home farm, and through the fact that he has been president of the Antioch chapter of Future Farmers.

C. L. Kutil, local agriculture teacher, is the chapter adviser.

Edwards Wins Place

In State Judging Contest

Ward Edwards, a member of the Antioch high school grain judging team, placed fourth in the judging of wheat at the state judging contest at the University of Illinois last week. Three hundred and eighteen boys competed in the grain division, so Edwards' placing on wheat was good.

Paul Nielsen tied for first place in the judging of Brown Swiss cattle. He was tied with twenty others out of a group of 477 boys.

Lloyd Barnstable was tied for first in the judging of sheep. He was tied with 124 others out of a group of 477 boys.

C. L. Kutil, coach and instructor, remained at the university for a 3-day conference this week.

FOX LAKE MAN GETS WATERWAYS INSPECTION JOB

Appointment of Edward
Tweed to Take Effect
July 1

Edward Tweed, of Fox Lake, has been appointed inspector for the waterways division of the state of Illinois for the Chain of Lakes territory, according to announcement received here from Benjamin H. Miller, superintendent.

Tweed's appointment will take effect July 1, and he will have jurisdiction over all the lakes and rivers from Pistakee Bay north to the Wisconsin state line and west of state highway 21.

On account of the extra amount of inspection work required in this locality, Superintendent Miller has been endeavoring to secure authority for the appointment of an additional inspector. The appointment of Tweed indicates his success.

Body of Deep Lake Drowning Victim is Still Unrecovered

Deep lake weeds and water still refuse to give up the body of their victim, Jack Klein, 19-year-old Chicago youth, who was drowned Sunday when he dived from a boat and failed to resurface.

His friends immediately called divers to search for the body, but it could not be located. It is believed to be tangled and held in the weeds. The lake was dragged with a net under the supervision of Supervisor Harry Stratton of Lake Villa, but no trace of the body was found.

Young Boy Is Saved.

A second tragedy was averted when friends brought in the body of Henry Henrickson, 14-year-old Chicago lad, who had gone down for the third time in Cedar lake, at Lake Villa, and applied emergency measures. He had been swimming in company with his pals and had suddenly disappeared beneath the surface. As soon as swimmers could reach him, he was rushed to shore and given treatment at the new emergency hospital at Lake Villa. He will be none the worse for the experience, physicians declare.

Kamin Case to Be Heard Soon

Suspected Burlington Bank Robber Recovers from Gun Wounds

Charges against Frank Kamin, Silver Lake, will be pressed early next week when he will be arraigned in Racine for complicity in the robbery at the Mainhardt State bank of Burlington. Charles Pruden, Racine district attorney, announced yesterday.

Kamin spent five weeks in the Racine hospital recovering from three bullet wounds, believed to have been inflicted from the bullets discharged by Officer Schenning of Burlington into the rear of a fleeing car at the time of the robbery. Later Kamin was found in a Twin Lakes cottage with Reinhold Flecker, who is being held in default of \$20,000 bail.

Kamin's brother, Joe, who was arrested as a suspected accomplice, is free on \$12,000 bond, awaiting a decision relevant to the preliminary hearings when evidence against Flecker and him was presented last week. Frank was removed from the hospital to the county jail last week.

SUMMER COURSES AT HIGH SCHOOL TO BEGIN MONDAY

Monday morning will see the opening of the summer school at the high school with ambitious students again entering the building, determined not to allow the opportunity of receiving instruction in new lines or in studies in which they have been deficient, slip by.

Classes will be held during the mornings only. Subjects taught will be mathematics, English, history, Latin, shop work and mechanical drawing. Miss Alice Smith and Fred Hackett will have charge of the instruction, but if enough students evince an interest in other subjects, another instructor may be available. Several of next year's prospective graduates have enrolled to gain two or three required credits.

"AN EXERCISE FOR BUSINESS"

(Roger W. Babson in Collier's Weekly)

There was never more money than there is today. Banks hold money, corporations hold money, the people hold money. That is the trouble, the money is held instead of circulated. A beautiful system of piping, a plentiful supply of fluid, but the whole mechanism fails to function for want of the pumping power of publicity to tell the world of our better goods, lower prices and greater service. . . . Advertising requires no novel mechanism. All the apparatus is available. Though it is capable of illimitable improvement, the fundamental principles of advertising are clearly established; its practice is a well-known art. The basic cause at which the jobless should shake their fists is not that too few mills are running but that too few advertising campaigns are running.

FREEDOM OF PRESS MAINTAINED

Setting aside the famous Minnesota newspaper "gag" law by the United States supreme court may be one of the most important decisions ever handed down.

Chief Justice Hughes stressed the need for freedom of the press—holding that need to be greater than ever before. The law, in its intention, may have been good—to outlaw indecent and salacious sheets. But in its wording, it put newspapers at the mercy of political corruption

or dictation. There is no place in America for suppression of honest comment or criticism.

PAYING FOR THE TAX FIDDLER

It is predicted that the treasury deficit for the current fiscal year will reach the billion-dollar mark and that there will be an equally imposing deficit during the fiscal year to come. As a result, unless there is a sizable increase in federal income, the national debt will show a 2-year increase of \$2,000,000,000.

Additional federal taxation appears to be inevitable. It is suggested that a federal sales tax on gasoline be levied, that income tax exemptions be lowered, that estate or inheritance taxes be boosted, and so on.

This will be discouraging for business and individuals now straining every fiber to keep going. We must, so to speak, pay for our governmental sins—for waste, extravagance, ventures into business, and the last \$10,200,000,000 congress. Taxes are high now—but it would seem that we "haven't seen nothin' yet."

MILKING THE MOTORIST

The poor motorist is becoming one of the tax-collector's best sources of revenue. Last year he paid taxes exceeding \$2,000,000 a day—and he will pay more this year. The gasoline tax, the registration tax, the personal property tax, the driver's license fee and similar levies are making a steadily larger hole in the driver's purse. Since 1921 total motor vehicle tax income has increased at the rate of 14 per cent a year—and gas tax income at the rate of 79 per cent a year. In spite of this, annual increases in motor vehicle registration have been less than 11 per cent, and expenditures for highways have gone up but 6 per cent.

So far during 1931 ten legislatures have given the gas tax a boost skyward—and in one state a 7-cent tax just escaped passing. The gasoline tax will approach \$600,000,000 this year and the total motor vehicle tax will be close to \$1,500,000,000.

HICKORY GIRLS' 4-H CLUB DISBANDS UNTIL NEXT MONTH

The cheerful Siltheers of the 4-H club held their fourth meeting at the school house Friday. The business part was called first, then Catherine Hockstra gave a talk on "Hygiene of Feet." Margaret Pullen and Virginia Wells talked on "Cleanliness." Leon Pedersen treated the girls to candy this week. Miss Drom then took the club girls to Williams Store at Antioch for a lesson on textiles. The next meeting will be held July 15, after Miss Drom returns from her trip to California.

HUGE BUSES OF FUTURE TO BE JUGGERNAUTS

What the bus of the future will be like from the bus operator's own viewpoint is envisioned by a model on display in the LaSalle street window of one of the lines operating out of Chicago.

The replica shows an elevator, a landing field for airplanes on the roof, a swimming tank, miniature golf course and many other comforts adding to its weight and girth, including even a beauty parlor and fully equipped dining room.

As pointed out in a bulletin made public by the Illinois Taxpayers Hard Roads Association, "Such vehicles are destructive enough as it is and are pounding our roads to pieces almost as fast as we can build them. What are we to do if they grow any larger?"

Babson says: "I have always heard about easy money but have never seen any of it. All the successful men whom I know are dynamos for work. Think It Over

Taxpayers' Questions

What has become of the low bid, by \$2,600, on the addition to the Glen Fiera avenue school?

Why is it that after the organized taxpayers obtain an official journal for the taxpayers' protection, the backward press is now printing just a little news which interests taxpayers?

Why did it take the militant taxpayers so long to appreciate that they did not have to favor those who aided a press which has been so hostile to organized taxpayers?

When will the aldermanic council in Waukegan call for competitive bids for the official publications?

Will there be real competitive bids, or a repetition of some past history?

Did you note how Capone pleaded guilty to a few things and thus kept silent upon many rackets?

How long are militant taxpayers expected to keep silent about useless street lights when a city seems unable to pay its old light bills?

Do racketeers fancy the lid is so heavy and tight that militant organized taxpayers cannot open till such a lid?

Have the organized taxpayers got to petition again for a four years audit of municipal accounts in a Lake Shore city? If so, will the method be as nice as the previous which left the auditors to disclose how the taxpayers' money had been used?

How many public officials appreciate the consequences of concealing the unlawful use of public money and allowing time for another public official to cover up and make good liberties with taxpayers' funds?

What will be the next alibi for delays in auditing Waukegan's account for the last four years?

Cannot means be found to repair county property without paying more for the fees of supervisors than the repairs at a time when poor relief funds are so short?

How many municipal and village officers in Lake county noted in the press that Lake Forest is really practicing economy in public expenditures?

Did you note, that after the militant taxpayers began to ask questions about the municipal audits, the local press headline was "234,319. Deficit on City's Books, Audit Discloses" and the story in Waukegan discloses "of the sum \$132,449.60 represents deficits in special assessments during the past four or five years with \$73,702 in deficits covering the period between 1910 and 1928" and do you wonder why the taxpayers organized and demanded audits?

Have you heard that Highland Park's new administration is disclosing things?

Is it not fine how election promises of economy are being practiced in one Lake county municipality where organizational rights are being provided at a cost of \$2,999 along a street frontage of two cemeteries which have so little money now for upsets that many taxpayers wonder how several thousand dollars of special assessments are to be paid for installing the ornamental lights, to say nothing of paying for the current when the long past due bills for current are reported as imminent?

When only a minor fraction of his special assessments installment are being paid in a community, why do municipal officers further increase the burden on property owners in a city that has not paid its last year's public benefit tax and that has just witnessed the closing of two banks?

Did you note how Capone pleaded guilty to a few things and thus maintained silence upon many rackets?

How long are militant taxpayers expected to keep silent about useless cemetery district ornamental street lights?

How many public officials really appreciate the consequences of concealing from the taxpayers the unlawful use of municipal public money or allowing time for another public official to make good any liberties with the public funds?

Are not organized taxpayers justified in congratulating themselves upon having the deposit of public funds secured by depositary bonds?

With the record of the Waukegan taxpayers for inspiration, should not all cities and villages in Lake county have a taxpayers organization and Lake county a federation of all such organizations?

Should not the taxpayers of a community have expression of public opinion in a press which promotes and protects the real interests of all taxpayers against graft and racketeering?

FOREIGN PROPAGANDA IS BRANDED AS 'ADROIT CAJOLERY AND VEILED THREATS' TO BEAT U. S. TAXPAYER

723 North Ave.
Waukegan, Ill.
June 22, 1931

President Herbert Hoover, and the Congress of the United States, and the Patriotic American Press.

Is there a conspiracy against the United States by competing nations? Suggesting congressional investigation and conference of governors to provide relief for American banks, mortgages, and debitors for at least one year; and for average American taxpayer.

Sirs: Our letters and questions of the 8th and 18th inst. to President Hoover are in part answered by the Hoover statement of June 20 in which a suspension of the war debts for one year is suggested; however, such a moratorium will not satisfy Germany or the Allies for long because the main purpose of the deluge of the alien propaganda has been to deaden both the principal and interest of the loans by the United States to the Allies; nevertheless, such a moratorium gives a fair time to look into the real status of affairs abroad and at home.

The average American taxpayer is reserving his and his opinion and action on all public officials who are pretending that relief for hard times in the United States is to be found abroad, and such a taxpayer is much concerned with certain intimations found in the Independent press. For example, please digest the following from the June 20, 1931, Literary Digest:

"On the other hand, the Tray Record sees the Germans up to their old tricks—by adroit cajolery, by veiled threats, by sally tears, they have sought to impress the world constantly with their burdens they are bearing. The same skepticism appears in the editorial columns of the Washington Post. A campaign engineered from Berlin has been started, designed to frighten Europe and the United States into making concessions to Germany. The country is pictured as on a verge of revolution and communism. If the United States will agree to postpone payments on the debts and the late Allies agree to postpone reparations payments, Germany will agree not to throw an optimistic fit."

Such a fit seems avoided during the next year during which the average American taxpayer suggests to our public officials, especially those in Congress, that a very clear-headed investigation be made of the things indicated by the Tray Record and the Washington Post and more particularly the intimations broadcast by Hearst's Chicago Herald-Examiner on June 17, 1931, where it is claimed there is a conspiracy against the United States by Soviet Russia and compelling capitalistic nations which desire to keep America from enjoying a greater share of the world's commerce and prosperity, the speaker said—Colonel Sidney Story, before a D. A. R. meeting in the Lake county circuit court room, at Waukegan, Ill., June 16, 1931.

How can confidence be restored in the United States until our public officials and the patriotic American press investigate such assertions and intimations and either deny or confirm the same to the American people, may act fairly and intelligently in the present.

As indicated to President Hoover in our letter of the 18th, the average American taxpayer is firmly of the conviction that relief for the business depression in the United States is to be found and provided in the United States. Conditions are much worse than the American press has recorded. Politicians can no longer give the American press "hand out" news because the average American is sick and tired of trying to attack an outside head in the quicksand while outside pora cry out there is no storm and prosperity is just around the corner.

With American banks failing daily all over the United States and the facts minimized in the national press, the local press prays and hopes for their respite through local efforts—such is impossible and a nation-wide effort is imperative to stabilize every effort pending the formulation of measures to start an all American effort within the United States solely to better conditions.

In the haughty Republican county of Illinois—Lake—and on what is known as the "Gold Coast" of Lake Michigan, where is located the bedroom of the most powerful of Chicago's business giants of industry, commerce and finance, two large banks closed their doors within the past week—both directed and officered by the cream of the local business world—two of Chicago's greatest banks were merged and not closed but all appreciate the meaning of it all in silence and hopes.

Their recent public bank state-

ments were excellent, yet in the steps of a public bank examiner the doors are closed or mergers forced. Why? Where is the great federal reserve system and how is it working with its guiding financial genius 3,000 miles away across the Atlantic ocean where he is credited with trying to aid the great German and Austrian banks?

Does not charity begin at home and should not there be a country-wide moratorium to save the American banks, mortgages and debitors for at least a year and some relief provided for the average American taxpayer whose reality is being practically confiscated by taxation during a period of minimum income to pay the obligations created during the boom period?

May the head of an organized group of militant taxpayers suggest to the President of the United States that he take means to secure a conference of the governors of all the states in order that some uniform plan may be devised to provide relief in the premises?

Let the federal and state experts work out practical plans for relief and then let the governors call special sessions all over the United States.

Why cannot the laws of foreclosure be made simple and the procedure cheap? Cannot a public official act as a receiver with minimum fees and cannot the fees of lawyers be restricted? Cannot means be provided to suspend foreclosure if a court deems it reasonable for periods during which the mortgagee is incapacitated by conditions created by all the people? Why should hard times for all the people force honest banks to close? If the bank examinations are real, how can honest banks be closed if a federal reserve system is really functioning to discount honest paper, even when it is somewhat temporarily depreciated by general conditions caused by others than the maker? Why cannot the government keep open and run sick banks?

Cannot a system be worked out to collect taxes in four installments and thus avoid the costly system of anticipation warrants issued by so many and to many public bodies? These and many other questions are passing on the lips of the average humble American taxpayer and business man who long for real bloodless leadership among public officials.

A suggestion of an early call of Congress is withheld because the nation would be forced to listen seriously to Hearst's 5-billion-dollar yid on the American taxpayers to provide work for a few of the day laborers on the highways and business for the street trusts with their cement and interfering materials.

Nobody questions the theory of purpose of the 5-billion-dollar plan or its immediate benefits to these few who can labor on the highways and a few buildings and sell cement and soil cement and steel; however, anybody with a grain of economic sense appreciates in the long run, the error would be worse than the sickness for the reason that economic death would result through a system of inflation and increased taxation of the present few rich which burden would ultimately sit down upon the hapless shoulders of the masses.

The Roman empire endured a few years longer by the system of racketeering or complete throwing gold coins out to the soldiers but when the coins ceased, the empire fell into civil war and even a fate awaits the nation whose politicians adopt the principles upon which any 5-billion-dollar plan must stand.

There is wisdom in many. Why not call the governors together? Why not direct the United States officials to study and plan means for all Americans relief of the people of the United States? Why not have such plans ready for Congress next December, however, in the meantime, please give serious consideration to the principles outlined in our letter of the 18th in which it was suggested that the methods of Judge Gary and President Coolidge be adopted to stop the flood of alien propaganda to the effect that there can be no American prosperity until and unless the war debts are cancelled and the tariff lowered.

Why not let Europe shift for itself for a year during which the United States is not drawing upon Europe's working funds?

Why not call upon all Americans to unite, start exchanging orders for goods, wares, merchandise, and service, provide a moratorium for current obligations in order that funds may be available for new business? The American people will respond immediately to positive American leadership which is constructive and honest.

Why not just let alien diplomats know that Americans are all "from Missouri" and that they cannot be stampeded by the ballyhoo of com-

WHO'S WHO IN LAKE COUNTY

Sketches of Lake County Officials

By R. H. S.
We are glad to introduce to the Lake county taxpayers L. O. Brockway, our county recorder, who was born in Lake county in 1854 and began his life's work as a school teacher in 1871 at the age of 17, continuing this occupation until 1893.

The writer of this article became acquainted with Mr. Brockway in 1892, when he was principal of the public schools at Deerfield, Ill.

From 1890 to 1893 he was one of the chief clerks in the interior department of our national government at Washington, D. C.

From 1893 to 1900 he was deputy county clerk under County Clerk A. H. Rogers, the father of our present county clerk. In the fall of 1900 he was elected to the office of recorder of deeds of Lake county and has been elected to that office eight times.

This last term will expire in 1932. At the time Mr. Brockway first became recorder there were 75,000 items on the records. Since then he has recorded 225,000 documents.

When his office is busy he requires many as seventeen clerks, including A. D. Bosford, deputy recorder, and a draftsman. At the present time, because of the depressed business conditions, there are only seven clerks, besides the deputy and the draftsman.

As suggested in the Taxpayers' report of the supervisors' June meeting last week, the report of the recorder's office by the auditor was most interesting because of its thoroughness and we hereby take pleasure in giving a copy of his report to the board of supervisors covering the period of six months from June 2, 1930, to November 23, 1930.

Number of documents recorded during the half year, 17,732
Recording fees earned, \$13,258.53

How many people appreciate what would now be the public plight of taxpayers in the largest Lake county municipality if the taxpayers had not become so militant that they voted down hundreds of thousands of dollars' worth of bonds for lake trout drive, city hall and fire stations and cast out of office many who tried to obligate indirectly the taxpayers for \$100,000 for a rookery for a city hall?

The war debts now seem to be emboldened for one year and consequently there is no reason why the American press should be saturated with alien propaganda and there should be available many columns for people who believe that Americans are fully able to provide ways and means of making the United States prosperous regardless of the rest of the globe, if the rulers there prefer poverty for their people rather than prosperity.

In the pre-selection Hoover proposals was one to abolish poverty. Let us at least fight increasing poverty in the United States.

Respectfully submitted,
Waukegan Taxpayers' Association,
By R. H. Sirlo, President.

COUNCIL EMPLOYS YOUNG & CO. TO MAKE 4-YR. AUDIT

The most important matter at the Waukegan city council meeting that came up for discussion was the contract or the engagement of Arthur Young & Co., nationally known public accountants and auditors, who are to make the audit of the city books covering the period of four years past.

All of the aldermen except John S. Whyte, chairman of the finance committee, voted to employ this firm at a per diem compensation of \$25 for senior auditor and \$20 for junior. Two men, senior and junior, will be on the job.

The contract between the city and auditors had not been signed by the mayor but because of the almost unanimous vote of the aldermen, the contract was found to be legal without the mayor's signature. The taxpayers, however, are wondering why the mayor did not sign. This, we hope, will be explained later.

As Eternal as a Rock; As Strong As a Mountain

Waukegan was saved last week from financial chaos because the First National bank was abundantly able to stand up against the onslaught of one of the worst runs that Lake county has ever witnessed.

Excitement was intense. The Waukegan State bank closed its doors on Thursday. The Waukegan National bank closed its door on Friday and the one bank left had to bear the brunt of all of the frightened forces of the savings depositors who had money in this great institution.

Banks are falling and merging everywhere. People are bewildered and do not know where to find a safe place in which to put their hard-earned money, but after testing the First National bank, during two exciting days, they are returning their money to it for safety.

It was really an inspiration to see the calmness of the bank officials, especially that of Charles E. Steele, the president, who is the grandson of the founder of this 80-year-old institution.

When hundreds of people were gathered around the doors and the large banking room was filled with an excited crowd, he was found ministering with and helping those who were determined to withdraw their savings to make out their withdrawal slips and taking every man in his power together with his able corps of officials to quiet their fears and assure them that their money was ready for them as soon as they could reach the various tellers of the bank.

It was indeed a fortunate thing for Waukegan and Lake county taxpayers and business men that one man in Waukegan, through their careful forethought and recommendation, had been able to withstand this terrible experience.

Waukegan still has a banking house that is as eternal as the hills and as strong as the Rocky mountains.

We hope to have the pleasure of writing an extended article describing this solid institution to the people of Lake county in the near future.

We join our thoughts in deep thanks giving with thousands of others that the First National bank of Waukegan was able to stand this crisis for the benefit of its citizens.

Circles' Vertebrae
There are seven vertebrae in the neck of the giraffe. This number is not greater than in other quadrupeds, and the neck has no extraordinary mobility, although its form and movements are very graceful. The length, therefore, is due to the elongation of each cervical vertebra.

"Is the Universe, including Man, Evolved by Atomic Force?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 21.

The Golden Text was "I know that, whatever God doeth, it shall be for ever: nothing can be put to it, nor any thing taken from it" (Eccl. 3:11).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Let every soul be subject unto the higher powers. For there is no power but of God: the powers that be are ordained of God" (Romans 13:1).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit is the life, substance, and continuity of all things. We tread on forces. Withdraw them, and creation must collapse. Human knowledge calls them forces of matter; but Science declares that they belong wholly to divine Mind, are inherent to this Mind, and so restore them to their rightful home and classification" (p. 124).

Town Team Wins From Former Stars

Takes a 20-13 Victory from the McHenry Boys Sunday

The unexpected strength, skill and knack of handling the ball displayed by the former members of the Town team rendered the game played off between the present and former members last Friday a most interesting one. The younger boys, not anticipating a hard game because their opponents have been out of practice, were taken by surprise and forced to call forth their reserve tactics. However, they took the game, 10-5.

Spectacular playing by the Town team in the fourth inning during which seven runs were accumulated off the pitching of Fields was reversed when B. Nabor took over the pitcher's milt for the older boys and retired his opponents with little effort. Dick Folbrich, "Gum" Down and Patterson

pitched for the Town team. A return game will be played at 6 o'clock next Tuesday.

Win "Slug Fest."

McHenry went down before the local boys Sunday, 20-13, in a game during which all players enjoyed a mighty slug-fest. Down and Patterson, supported by their teammates, who showed marked improvement in their ability to send the ball places, gave exhibitions of daring pitching.

The boys will take on the Millburn A. C. here Sunday. Millburn has revamped their line-up and will come expecting to give the locals a real test. It is expected that Patterson will draw the pitching assignment.

LAKE VILLA DOCTOR EQUIPS EMERGENCY HOSPITAL AT HOME

Primary and Junior Depts. Present Children's Day Program

Dr. Morris Glendrich has furnished an emergency hospital at his home, the Emma Martin cottage near the William Snyder property, and is prepared to care for medical cases as well as accidents.

Children's Day was observed at the church here Sunday morning. The primary and junior departments and the following children took part: Frances Sherwood, Dorothy Knudson, Bobby Alapough, Betty Hadad, Mary Plinch, Gladys Dixon, Phyllis Helin, Katherine Rhoades, Lorraine Hooper, Billy Plinch, Ellen Nader, Cornelia Douglas, Barbara Buchta, Clara Harmon, Vanita Phillips, Virginia Hadad, Alice Dixon, Pauline Nader, Betty Reinebach and Esther Davis.

Lorraine Hooper visited her cousin in Chicago a couple of days last week and returned Friday, bringing her cousin with her. Ed Tiede, her uncle, spent Friday in Chicago.

The Ladies Aid society will meet Wednesday with Mrs. Frank Wood at her new home, near the church. It is an afternoon meeting and all are invited.

Mr. Anderson, of Kenosha, spent last week with his daughter, Mrs. Frank Nader, and family.

John Cribb, accompanied by Harold Cribb, of Waukegan, drove to Prairie du Chien Saturday night and spent Sunday with Mrs. Cribb at the hospital there. She is improving and expects to be there a few weeks longer.

Mrs. Joe Nader and infant daughter returned home from St. Theresa's hospital last week. Both are doing nicely.

Mr. and Mrs. James Atwell spent the past week with the Glesser family at Maywood.

Mr. and Mrs. Harvey Meyer, with Howard, spent Saturday and Sunday with Mrs. Meyer's mother, at Westfield, Wis.

Miss Theda Waterman, health nurse for Lake county, was in our village Monday on business.

Mrs. James Kerr and Mrs. William Weber visited Mrs. Frank Wokoun, nee Holly Jones, at the Conwell Memorial hospital in Libertyville last week and saw her small son. Both are doing well.

Mr. and Mrs. Fred Hamlin were Libertyville callers last Wednesday.

Mrs. Carrie Kerr, who has been in Toronto, Canada, with her daughter for several months, spent last week with Mr. and Mrs. James Kerr.

Mrs. Arthur Nanta, of Waukegan, visited a few days last week with her daughter, Mrs. Lester Hamlin.

Mrs. Paul Avery was awarded first prize on columbines at the Fox Lake garden show last week.

Mr. and Mrs. Gus Swanson and daughters, Evelyn and Elele, started early Monday morning on an auto trip to points in Wisconsin. They expect to visit the Sorenson family, who recently moved to Tomahawk, and then go on to other scenic points.

WILMOT PIRATES DEFEAT FOX LAKE

Pitching of Norm Richter Sends His Team to Victory, 10-0

The Wilmot Pirates played good ball behind the brilliant southpaw hurling of Norm Richter and shutout the Fox Lake club Sunday at the Wilmot park, 10-0. Norm Richter held the Fox Lake club to three scattered hits and struck out fourteen batters. Two fast double plays by the Wilmot club were features. Fritz Oetting, with three hits and two walks in five trips to the plate, was the hitting star of the day. Shubert Frank with three hits in five trips, Norm Richter, George Richter and McDougall with two hits each in four trips to the plate were the other prominent hitters of the day.

Owing to a cancelled game the Wilmot Pirates have an open date next Sunday. Any club interested should call Wilmot 273.

Life's Anxieties
If this life is unhappy, it is a burden to us which it is difficult to bear; if it is in every respect happy, it is dreadful to be deprived of it; so that in either case the result is the same, for we must exist in anxiety and apprehension.—L. A. Bruyere.

Consort Untrue to Napoleon
Marie Louise of Austria deserted Napoleon when he was on his way to Elba and returned to Vienna with Count Neipperg. While Napoleon was at St. Helena, Marie Louise lived openly with Neipperg at Parma, and she had the count a son shortly after the death of her exiled husband.

CHANNEL LAKE COUNTRY CLUB NEWS

This week sees the inauguration of the real club activities for the ladies, both with the card parties and the golf events. The opening card party was held Tuesday, and twenty-three members gathered for lunch and the usual hors d'oeuvres. The prizes for bridge were given to Mrs. A. Jurden, Mrs. W. Warriner, and Mrs. William Gray. Others present included Mesdames Ouedinger, Tankersley, Dean, Arms, Gladson, Cooper, Gray, Sandell, Laffin, Smart, Brook, Simons, Williams, Anderson, Runyard, Vos, Warriner, Pollock, Maplethorpe, Mitchell, Fenderson, and Volk.

It is interesting to note that many more friends of the members are taking advantage of the excellent condition of our golf course, and the added greens fees are an always welcome asset.

The first golf event for the ladies will be held Thursday (today) and is a putting contest. Next week Thursday a "flag" contest is scheduled. Mrs. Wm. K. Gray, the chairman for these events, will take all reservations for the luncheons which are to follow the games.

The summer residents are gradually arriving and getting settled in their cottages for the season. Among the later arrivals are Mrs. Max Maurmann and family, and Mrs. Henry Paulson and family. The latter spent a week up in northern Wisconsin before settling down in their home on Lake Marie.

Mrs. Robert Kresse and daughter, Margaret, are in the William Dorrance cottage until August first. Their many friends in the club and elsewhere learn with regret that the Kresse family is returning to New Zealand in August for another lengthy stay.

Mrs. Adele Jurden, of Washington, Mo., arrived at her sister, Mrs. Tankersley's, Tuesday to remain the entire season. Norman Tankersley is also at home for a month with his parents.

Mr. and Mrs. George L. Laffin are occupying the Laffin cottage on Channel lake for two weeks.

Mrs. Wm. H. Clifford gave a delightful luncheon and card party Friday in honor of her daughter, Mrs. Clarence

Dividend Printing

There is one kind of printing that you want—printing that pays a dividend on the investment.

A letterhead with right sort of type properly balanced is a real business asset. It is the approval of the person receiving your letter, and while he is in the frame of mind your letter is read.

The same reasoning applies to any other job of printing. Neatness, the right weight and kind of paper, the color of the ink, the selection of the type, all play an important part in the production of dividend printing.

We are equipped to give you the kind of printing that pays a dividend on the investment.

She's not like
Mother Hubbard

She has a "reserve shelf" in
her electric refrigerator

SHE likes to have friends drop in any time—without warning. Her friends like to drop in, too, because she's such a charming hostess.

And she serves the most delicious impromptu lunches. Unlike Mother Hubbard, her cupboard is never bare—or, strictly speaking, her electric refrigerator isn't. She has what she calls a "reserve shelf" where she always keeps sandwich spreads, cheeses, fruit juices for cooling beverages, mayonnaise for hasty salads. She can assemble a tempting trayful of food with no trouble at all.

Her electric refrigerator keeps these odds and ends fresh and palatable for weeks at a time. No wonder she's enthusiastic about the way electric refrigeration simplifies the art of entertaining gracefully.

It is easy to purchase an electric refrigerator on convenient time payments. Just a small payment down. We'll be glad to tell you all about it at your PUBLIC SERVICE STORE. So will your LOCAL REFRIGERATOR DEALER. Stop in.

HintsSIMPLE SUNDAY
SUPPERS CAN BE
PREPARED ON SAT.Edwina Nolan Shows How
Easy 'Tis to Have Food
Ready to Serve

Sunday night suppers can be tedious affairs or they can be happy and gay and served without fuss. The secret, of course, is preparing them in advance.

The simplest of menus is the one that men like best, as for instance:
Toasted Mushroom Sandwiches
Chicken and Cucumber Salad
with Potato Chips
Chocolate Cream Cup Cakes
Coffee

The mushroom sandwiches are made Saturday afternoon, folded in a damp towel and put into the electric refrigerator, where they keep in perfect condition until Sunday evening. The lettuce is washed and put into the vegetable pan in the refrigerator to crisp. The mayonnaise is made and, with the cucumbers and an ounce jar of chicken, put into the refrigerator. Cup cakes should be made Saturday morning.

Mushroom Sandwich Filling.
The filling for the toasted mushroom sandwiches: One pound mushrooms, 4 tablespoons butter, 3 tablespoons flour and 1/2 teaspoon salt. Peel the mushrooms, remove stems and scrape them. Chop mushrooms and stems fine, melt butter in frying pan and add finely chopped mushrooms. Sauté slowly until mushrooms are golden brown. Then dredge with flour and salt, stir flour rapidly into mushrooms and cook until mixture thickens. Cool and use as sandwich spread. It will keep satisfactorily for two weeks or more in the electric refrigerator if not all used for the Sunday evening supper. Other menus are as easily arranged.

This plan leaves for the late Sunday afternoon only the combining of the chicken and cucumber salad. The sandwiches may be toasted on a grill at the table and the coffee made in the percolator.

Are You Perplexed By
One of These Summer
Beauty Problems?

The effect of the dust and heat of summer months on the skin causes many beauty problems for many of the fair sisters to muse upon. Those afflicted with oily skins are inconvenienced by excessive exuding of the pores in hot weather, while their dry-skinned compatriots complain that frequent bathing and swimming takes too much oil from the skin.

Cold water and faithful application of astringents will do much to prevent the oil and grease becoming unduly active. Dry skins should be treated with a pure, mild soap. After the bath, if one rubs the body with muscle oil, it will stimulate the skin and help to prevent it from becoming too dry.

If, under the heat of the sun on a camping trip, the skin on your eyelids and under your eyes appears drawn and dry, the thing to do is to begin immediately applying plenty of tissue cream or skin food all around your eyes every night before retiring. This cream will be absorbed during the night, and will help the oil glands in your skin to perform their natural function of keeping the skin soft and lubricated. Nothing shows age so quickly as this dried-up condition of the eyelids, and nothing is so easy to prevent if you will use tissue cream or skin food every night.

News For Brides

It has long since been proved that canned foods retain their vitamins, since these are destroyed only by heating in the presence of oxygen, and canned foods are all cooked in hermetically sealed cans. But it has remained for Dr. Walter H. Eddy of Teachers College at Columbia University to specify a list of them on which present-day brides can rely to contain adequate amounts of vitamins A, B, C and D for health needs in her honeymoon "canned menu."

Here are the foods upon which Dr. Eddy stated in a recent address before the American Chemical Society that brides can rely:

Canned milk, every day.
Choice of ten meats: Roast beef, corned beef, tongue, pot roast, chicken, lamb stew, corned beef hash, sausage, veal loaf and chicken a la king.

Choice of seventeen vegetables: Spinach, peas, string beans, tomatoes, tomato juice, wax beans, baked beans, beets, corn, lima beans, sweet potatoes, hominy, carrots, okra, turnip greens, Brussels sprouts and mixed vegetables.

Choice of six fruits: Prunes, peaches, apricots, cherries, pineapples, apple sauce.

Canned brown bread and spaghetti.

Dessert: Canned plum pudding.

Based on Scientific Tests

The tests upon which these specific recommendations were made were based on rats. The rat experiments lasted for a year, which, Dr. Eddy said, was equivalent to about twenty-five years of human life. All the animals averaged better in weight than those fed on a stock diet, he said.

and similar silks dye well. However, many kinds of silks cannot be successfully dyed because they are weighted; that is, they are treated with a mineral solution which makes the cheaper grades of silk look heavier and better.

To test silk to determine whether it is weighted or not take a small sample of silk and light it with a match. If it burns with a flame and curls into a tiny ball, it is not weighted. If it is weighted, the silk will not burn with a flame but will simply char and

When the first sweltering days of summer turn one's thoughts longingly to cool northern woods and lakes, it is time to ponder means of obtaining an immediate comfort through the medium of light clothing. Something washable, so that it may be freshly laundered and pressed before it is worn, that retains its "drowsy" appearance, is most suitable.

Wash silks, with their many possibilities for original treatment in color or pattern, are much in favor. If you have an old dress that has lost a bit of its last summer's bright appeal, it can be dyed a new shade with success.

THE DISFIGURING
CLOTHESLINE IN
YARD OUT-MODEDThe Lines Can Be Concealed
in Out-Door "Sun
Parlor"

Killing two birds with one stone is one of the favorite pastimes of most of us, providing that we are able to find two birds within throwing distance. Recently, a novel idea was devised which might well be adopted by women in town, on the farms or at the lakes.

When one wishes to serve lemonade and sandwiches on a hot afternoon, it is pleasant to have a shaded spot where one can eat in comfort. But how unpleasant to have to sit in a backyard draped with clotheslines.

Why not combine a canopy with the clothesline? The frame for the canopy may easily be made with two posts, two cross bars nailed horizontally about 8 inches from the tops of the posts, and bored with four or five holes in which to fasten the clothesline; boards connecting the top of the posts with the ends of the cross bars, thus forming a peak on which to hang an awning; a long top bar joining the tops of the two posts and two long side bars joining the ends of the cross bars on one post to those on the other; any other braces or wires required; an awning, covering or canopy top, which is fastened to the bars with snaps.

Has Multiple Advantages.
The covering could be easily removed on wash day. For hose or sink things it would not be necessary to remove the canopy top on a bright day.

A combination "invisible" clothesline and outdoor tea room has other advantages as well. It would be an ideal place to pare potatoes, hull strawberries, pit cherries, shell peas, etc.; or if the canopy top were made to drape far over the sides, mothers could throw a mosquito net over their babies, and let them sleep in their buggies under the shaded canopy.

It retains practically its original shape. The charred portion will crumple at a touch. This is due to the minerals used in weighting, which will not burn.

TOPPY'S TRAVELS

Synopsis: Topsy leaves home to follow his canary. After many adventures, Mr. Frog and Toy, the dewdrop, cause the Cushions to fight the Pillows, who have invaded the land of the Cloud-Queen. The Pillows, however, seem to be winning from the Cushions, so Topsy sets forth to train an army of Cloud-people. He gets lost and meets a laughing falcon, who rescues him from a Pillow guard. Continue—

After Topsy had said that he would tell the falcon his secret if he were sure the bird wouldn't tell, and was not an enemy, the bird suddenly dropped his hilarious manner, and became dejected. Topsy was startled at the change in him.

"What is the matter, Falcon?" he cried quickly. "Are you hurt?"

"No." The bird refused to utter another syllable.

Topsy was puzzled, and kept glancing at him from time to time. They walked on and on, but could not find the trail that Topsy was searching for.

Once he murmured aloud, "I wonder if my soldiers are waiting for me? Oh, where is the trail to Mist Valley?" The falcon lifted its head. "Mist valley? Why didn't you ask long ago? I know where that is."

"You do? Wonderful!" Topsy was delighted. "Tell me how to get there."

"Toll you? I'll take you—unless you don't trust me."

"Well—" Topsy paused. "I don't want to hurt your feelings, but—"

Never mind my feelings," interrupted the bird harshly. "Nobody ever has or ever will. Go on." He broke into a tremendous laugh.

"But you saved my life, and I am truly grateful," Topsy protested, "but, you see, this is a secret, and if you should prove to be an enemy, then ev-

erything would be ended."

"I promise you that I will not be a traitor," the bird declared earnestly. He continued after a minute: "However, I don't expect you to believe me. No one ever has. Somehow, though, I thought—"

His voice trailed away, but instantly he burst forth with a great effort at cheerfulness. "It doesn't matter. I'll go my own way, and let you go yours. Now listen, and I'll tell you how to get to Mist valley."

"Wait a minute," begged Topsy, with a troubled look on his face. "I'm sorry, I did not think you would care, because you laugh so much. I'll tell you all about it, and you can help me if you want to."

"Do you mean it? Do you mean it? Oh, I'm so happy, happy, happy! I've got a friend at last. You don't know how lonely I have been. I'll serve you—I'll die for you if you tell me to." And he laughed joyously.

"Please don't make so much noise, nor laugh so much," commanded Topsy.

"I'm sorry," said the falcon humbly. "It's a bad habit. I did it so that people wouldn't know that I cared when they shunned me. Please help me to break the habit."

"I will," promised Topsy. He felt very sorry for this lonely bird, and was sure, now, that he could trust him. So he told him the entire story of how he had left home, and become involved in this situation.

The bird listened with shining eyes. "I think that you have had a very exciting adventure," he exclaimed. "I'm sure that I will be able to help you. I'm well acquainted with this country, and can direct you wherever you wish to go. I hate the Pillows, too. Come on, now we will go to Mist valley."

Topsy and his new friend started toward the valley.

Moose Win Indoor Baseball Game From Business Men 3-0

Paschendale Takes a Close Practice Game from Firemen

A close game of indoor-outdoor baseball between the Town team (business men) and the Moose team Thursday afternoon might have been called at the end of the second inning as neither team scored. In the last seven innings, the Town team men failed to round the diamond once, while the Moose made their three runs in the second. The game was free of errors. Ten hits were allowed by Shunnesson, Moose pitcher, and eleven by Masine, hurler for the business men.

The score:
TOWN TEAM—

Paschendale Takes Practice Game
A practice game between the Firemen and Paschendale Friday afternoon was taken by Paschendale, 8-7, with Craft pitching for the Firemen and Simpson slinging from the mound of Paschendale. Thus far the indoor league teams appear to be quite evenly matched.

The Firemen will play the Town team (business men) in indoor-outdoor baseball tonight.

National 40 and 8 Officers Attend Lake Dedication Ceremony

By Dan Hunt
On June 27 and 28, a long-looked-for event in local American Legion circles will take place when the lake on the hospital grounds at U. S. Veterans Bureau Hospital No. 105, at North Chicago, is formally dedicated by national officers of the Forty and Eight as "Vulture Lake."

Saturday afternoon a large delegation of Lake county Forty and Eighters will gather in Deerfield at County Line and Waukegan roads to welcome and escort the Grand Chemin de Fer (president), Charles E. Perry, and National Correspondent (secretary), C. W. Ardery of the national Forty and Eight, through Lake county to the Karcher hotel at Waukegan, headquarters of the event.

A big parade of motorcycle officers, lands, automobiles, and Legion celebrities from Cook county posts and volunteers will escort the national officials to the County Line road.

Preparations are being made to handle a gathering of about 7,000 by the committee in charge. Because it is the first appearance of national Forty and Eight officers in the state this huge gathering is predicted.

The Saturday afternoon program, which is open only to Forty and Eighters, follows:

SATURDAY, JUNE 27 (Daylight Saving Time)

4:00 p. m.—Police and automobile escort will meet national officers at County Line road, join escort provided by Cook County Vulture 220.
5:00 p. m.—Registration and reception at the Karcher hotel, Waukegan (headquarters).

6:30 p. m.—Testimonial banquet to distinguished guests; address by Chief de Chemin de Fer Perry.
7:45 p. m.—Short parade of Forty and Eighters, Box Cars and P. G.'s (Initiates).

8:00 p. m.—A real "wreck" (Initiation) at the Waukegan armory.
10:00 p. m.—Midnight show and entertainment.

Open to Public.

The Sunday afternoon program is open to all Legionnaires and the general public. The program:
SUNDAY, JUNE 28 (Daylight Saving Time)
10:30 a. m.—Chefs de Gare and Corner Sheehan.

Leroy Plig, Waukegan, T. E. Sims, Klabin Toulgan, Spaulding, W. C. McKenzie.
Dorothy King, Winthrop Harbor, Laura E. Hahn.
Doris Tandrup, Fox Lake, Ella Dobriant.
Dan E. Williamson, Lake Villa, Charles Frye.
Harvey Schaffer, Lake Zurich, Almina Heybeck.
Kenneth Zimmerman, Gurnee, Mary McCann.

respondents will be addressed by National Correspondent Ardery.
1:30 p. m.—Auto parade through Grant Lakes Naval Training Station and U. S. Veterans' Hospital No. 105.
12:00 noon—Band concert and program by hospital drum and bugle corps.
1:15 p. m.—Raising of colors on new flagpole.
1:30 p. m.—Dedication program and unveiling of bronze plaque.
2:00 p. m.—Inspection of hospital and patients' activities.

ANNUAL REPORT OF WORK READ IN MOTHER CHURCH

Christian Scientists from Many Countries Gather for Meeting in Boston

GRATEFULNESS FOR BLESSINGS IS VOICED

(Note—Christian Scientists in this district will be interested in the report of the annual meeting of the Mother Church, as published in the Christian Science Monitor.)

Evidence that the Christian Science movement continues to grow, and counsel to members of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, that this growth springs directly from loyalty to the teachings of Mary Baker Eddy, the discoverer and founder of Christian Science, were given in reports at the annual meeting today in the church edifice.

Approximately 6,000 members from many nations attended, overflowing the main auditorium and necessitating use of amplifiers in the original structure.

In connection with work that steps for erection of the new publishing house to cost not less than \$2,000,000, are being taken as rapidly as possible. It was announced that during the last year all indebtedness has been removed from the six acres of land surrounding the church. The publishing house will be built on part of this property.

A total of seventy-nine new branch church organizations were formed in the last twelve months, reported the department of branches and practitioners.

A New England Congregational minister (Dr. Alfred Grant Walton, Stamford, Conn.) is reported to have stated in a recent sermon on Christian Science: "Christian Scientists have a living and a radiant faith. Religion is not a perfunctory thing with them, it is a joy and sustaining influence in their daily work and a practical ele-

ment in their everyday life."

Incidents of Healing.
Incidents of Christian Science healing were read by Miss Florence Hodgins, of Swampscott, Mass., as follows:

As an indication of the healing efficacy of Christian Science which is attested by approximately 760 testimonies carefully verified, published each year in our periodicals, I have been asked to read the following representative testimonies:

A man suffering from tuberculosis in its last stages had been told that he might last two months. When Christian Science was mentioned to him, he was indignant at material medicine and the first treatment given. The man stated: "That night I retired very skeptical, went to sleep and a week in the morning realizing that a great change had taken place. . . . My strength had returned, I dressed, ate my breakfast, went to the office, surprising everybody by my presence, returned to active duty and have never had a sick day since."

Relief Work of the Church.

Relief was given by The Mother Church through government officials in Santa Domingo at the time of the hurricane there; through representatives of our church in New Zealand at the time of the earthquake in the North Island; and in Java following volcanic eruption there. Some general relief has continued to be given in Germany, France, China, Austria, Finland, Estonia, Italy and England, and also in the United States. The work in the government hospital at Oteen, N. C., has been continued through the year and good reports have been received from those who have been benefited through the ministrations of Christian Science. More extensive relief work has been carried on in the drought areas of his country in the lower Mississippi valley. Much appreciation has been expressed for the help given, and many in this section have learned of Christian Science for the first time through this activity.

A member in a distant field wrote a letter which indicates how Christian Science is bringing men of different nations into this true consciousness of God and His perfect reflection, man. The statement in part reads as follows: "We have fourteen nations represented in our membership, . . . all working together in harmony, striving for the same standard of right thinking, awake to the need of overcoming national faults of character, and of establishing an international consciousness, in realizing the one Mind."

THE SALESMAN CAME CLEAN

WHY MEN LEAVE HOME.
A THRILLING, HAIR RAISING MELODRAMA IN ONE REEL.

HERE, GEORGE, PUT THIS FUR AWAY AND DON'T FORGET TO GIVE IT TO ME WHEN I LEAVE THE CLUB—

MY WIFE'S IN ATLANTIC CITY AND SHE WANTS ME TO BRING IT TO HER—I LEAVE ON THE 10-40, TONITE

10.15 O'CLOCK—AT THE R.R. STATION—30 MILES FROM THE CLUB—

I'VE FORGOTTEN THE FUR—RUSH BACK TO THE CLUB.

AH, I MADE IT—CHOO CHOO

ATLANTIC CITY—HELLO, WIFE, HERE'S THE FUR.

I'VE CHANGED MY MIND—I DON'T WANT IT.

VE GADS!

WOT HO! FOR A LIZARD

Th' lizard dived down th' hatchway after th' sailor and chased him out on deck again. By crackey, things were pretty lively for awhile. My old shipmate, Tops'l Barney, said I ought to be tossed to th' sharks for bringin' such a pesky critter aboard.

Well s'r, that lizard must have been chucklin' to himself at th' way th' crew was keepin' clear of his snappin' jaws. Th' bos'n tried to lasso him with a rope, but missed and had to run for his life. Th' second mate grabbed an empty barrel from th' galley, and as they raced past clapped th' barrel over th' lizard's head. Wow! Then th' fun began. With th' second mate still hangin' to th' barrel, that

dodgasted lizard pranced 'round on his hind-legs, whirlin' and splinnin' like a dancin' dervish. Tops'l Barney was tryin' to get a rope on th' critter's legs when th' mate lost his hold on th' barrel and landed on Barney's fat stomach. Down they rolled into th' lee-scuppers.

With th' barrel over his head th' lizard made for me and away I went. I saw an openin' in th' bulwarks and with a jump I grabbed a halliard made fast to a belayin'-pin near th' openin' and hoisted myself out of reach as th' lizard went under me, out through th' openin' and overboard. Th' last we saw of him he was headed for th' island with th' barrel still over his head.

IN MY LAST YARN I TOLD YOU HOW I HAD BROUGHT A GIANT LIZARD ABOARD THE LAHUI, AND HOW TH' LIZARD HAD GOTTEN LOOSE AND WAS RAISIN' A TRUMPUS ON DECK. WELL, HE'S STILL AT IT!

YARF!
